SUMMARY

Product Designer with experience in building scalable **B2B and B2C** products across Industrial **IoT, Healthcare, and AI** domains. Recognized for **strong design ownership**, specializing in designing data-rich interfaces and end-to-end workflows that drive real impact.

I thrive in **high-impact spaces, ambitious teams and great culture**. I love working closely with technology, our society and people. I'm open to learn and adapt to new ways of work, new skills and new industries as long as I'm solving meaningful problems. I care a lot about culture, and I seek to build authentic relationships with the people I work with. I excel in a collaborative, **self initiative environment**.

WORK EXPERIENCE

BOSCH • User Experience Designer

Bengaluru, Karnataka • Aug 2024 - Aug 2025

Contributed to Bosch's UX-as-a-Service vertical, shaping user experiences for applications across domains such as Industrial IoT and AI-powered solutions.

- Created a real-time workflow solution that **simplified data capture** and **downtime logging** for manufacturing operators, resulting in a **decrease in process downtime** and **increasing operator confidence**.
- Led the design of a rollout management system for administrators, **reducing task completion time**.
- Conducted **UI audits and UX research** for a Responsible AI platform, using insights to improve **usability, user adoption, and engagement** across key workflows.
- Shipped **3 MVPs** using Lean UX & Design Thinking in collaboration with global teams.

BOSCH • User Experience Design Intern

Bengaluru, Karnataka • Jun 2023 - Apr 2024

Worked in Bosch's UX-as-a-Service vertical, contributing to internal and external projects, with a focus on the healthcare domain.

- Designed **Bluetooth integration features** for a respiratory management app to enable a **frictionless connection experience** and **reduce setup time**.
- Crafted an intuitive **web portal** for sleep apnea app administrators, **enhancing usability** and **simplifying complex device and customer management tasks**.
- Created **custom illustrations** for the Vivalytic device to educate users on complex background processes, **improving perceived reliability** and **reducing uncertainty** during device operation.
- Led **research and strategy** to develop a UX roadmap that helps the Bosch healthcare team systematically **advance clients' UX maturity**.

The Brush Bud • Graphic Design Intern

Bengaluru, Karnataka • Nov 2022 - Feb 2023

The Brush Bud is an oral care brand focused on creating innovative, safe, and enjoyable products that promote healthier, happier smiles.

- Conceptualized and developed design concepts, graphics, and layouts for the website, ensuring **cohesive branding** across platforms and **improving user engagement** through a visually appealing, functional interface.

Deloitte • Associate Analyst

Bengaluru, Karnataka • Nov 2020 - Nov 2021

Deloitte is a global professional services firm providing consulting, audit, tax, risk management, and financial advisory services across industries.

- Part of Global Cloud Operations team. Managed the cloud operations of various clients under the pod.
- Improved established service delivery SLA's. Conducted weekly health check reporting to manage and collect the status.
